

REDI-HEAT™

Propagation Mats

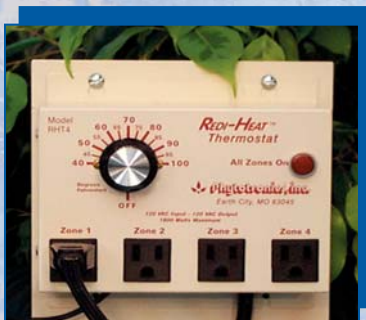

Features of the Redi-Heat Propagation Mats

- The New Redi-Heat Propagation Mats are portable and can be used anywhere root zone heat is necessary.
- Provides even, constant heat to the root zone for pots and flats.
- Designed for use on greenhouse benches or any flat surface
- Waterproof and fully grounded against electrical shock. As with all electrical products, use care when working with and around the mats.
- Redi-Heat Mats have a heavy duty 8' cord with a molded NEMA three prong plug for 120 volt AC current.
- Each mat is fully warranted for 1 year with full replacement if defective.
- They are easy to install and economical to operate.
- Larger sizes eliminate the need for multiple cords and receptacles.
- Excellent for plant propagation or growing.

The new Redi-Heat Propagation Mats provide flexibility to growers who need an even, constant heat to the root zone of freshly sown seeds and cuttings to promote uniform plant growth. They can be used for small or large propagation areas anywhere there is 120 vac current. Redi-Heat Propagation Mats should be used with a thermostat to maintain a constant desired temperature. The Phytotronics RHT4 Thermostat is excellent for this purpose.

The Redi-Heat Mats are so unique and efficient that they are patented. The heating element is manufactured with durable carbon, silver and copper interior components. These elements are then laminated between two tough, clear polyester sheets. The blue grounding foil is then bonded to the outside surface to evenly distribute the heat and protect the grower from electrical shock should a scratch or puncture in the laminate expose the heating element.

RHT4

Phytotronics RHT4 Thermostat

RHT4 - A mechanical type Thermostat with a range of 40 - 100°F with an accuracy of +/- 3°F. 4 zones, 1800 watts.

WHEN USING MATS WITH GFI OUTLETS, STAY BELOW 500 WATTS TO AVOID TRIPPING THE GFI.

Specifications of the Redi-Heat Propagation Mats

Model No	Length	Watts / Foot	Watts / Mat	Wt / Each
12" wide Redi-Heat Propagation Mats				
RHM1205	5'	20	100	2
RHM1210	10'	20	200	2.5
RHM1220	20'	20	400	4
17" wide Redi-Heat Propagation Mats				
RHM1705	5'	30	150	2.5
RHM1710	10'	30	300	4
21" wide Redi-Heat Propagation Mats				
RHM2105	5'	40	200	3
RHM2110	10'	40	400	4.5
